

safety policy

Hapap Ltd adheres to strict Health & Safety procedures set in place and encouragement is given to all employees to fully participate in attaining high standards of safety.

Information detailing the arrangements in support of our policies is made available to all our employees

It is the Company policy to do all that is reasonable to prevent personal injury and damage to property and to protect everyone involved from foreseeable work hazards.

In particular the Company is responsible for providing and maintaining all plant and equipment necessary to ensure safe systems of working are employed. All necessary training together with safety devises and protective equipment is made available and their use supervised.

Additionally, our Health & Safety policy is provided to all employees, sub-contractors and specialists who offer guidance and highlights expected safety standards.
